

Lösningar modul 3

Övning 2

```
<!DOCTYPE html>
<html>
<head>
  <title></title>
  <meta charset="utf-8" />
</head>
<body>
  <script>
    for (myInt = 30; myInt >= 0; myInt--)
    {
      document.write(myInt + "<br />");
    }
  </script>
</body>
</html>
```

Övning 3

```
<!DOCTYPE html>
<html>
<head>
  <title></title>
  <meta charset="utf-8" />
</head>
<body>
  <p>Klicka på knappen.</p>

  <button onclick="myFunction()">Prova</button>

  <script>
    function myFunction() {
      var summa = 0;
      var tal = prompt("Skriv in ett heltal", "0");

      for (myInt = 1; myInt <= tal; myInt++) {
        summa = summa + myInt;
      }
      document.write("Summan av tal 1 till " + tal +
" blev " + summa);
    }
  </script>
```

```
</body>  
</html>
```
